EDUCATION

Master of Computer Applications (MCA) – Computer Science

Indira Gandhi National Open University (IGNOU)
(Integrated MCA)

New Delhi, India
June 2020 – July 2022

PERSONAL PROJECTS

Modern UI-UX Bank Application [React + Tailwind CSS]

- Developed a 100% industry ready fully responsive modern UI-UX bank app with React and Tailwind CSS.
- Github Link : [Source Code](#) Deployed at : [Live Site](#)

Modern UI-UX Restaurant Application [React]

- A fully responsive modern UI-UX restaurant application design built in React. Best CSS practices are opted for the design & decoration of the website by following CSS BEM Model.
- Github Link : [Source Code](#) Deployed at : [Live Site](#)

GPT3 Modern UI-UX Landing Page Design [React]

- This (GPT3) is a modern UI-UX landing page design built completely in React. Best CSS practices are opted by following CSS BEM model.
- Github Link : [Source Code](#) Deployed at : [Live Site](#)

My Media Manager [React, Redux , Redux Toolkit Query, Async Thunk]

- This is a react project based on **data fetching** from an API server. Multiple techniques for data fetching are used such as Async Thunk Functions and Redux Toolkit Query (RTK Query).
- Github Link : [Source Code](#)

Image Searching Application [React + API]

- This is an API based image searching application build completely in React. This application fetches the images from **UNSPLASH API** based on a search term entered by the user in the search bar.
- Github Link : [Source Code](#) Deployed at : [Live Site](#)

API Based Weather Application [Vanilla JavaScript, fetch API, Promises]

- This is a fully responsive Weather App project built completely in Vanilla JavaScript along with HTML and CSS. It is using Open-Weather API for fetching the current weather data.
- Github Link : [Source Code](#) Deployed at : [Live Site](#)
